FAMILY AND MEDICAL LEAVE (FML) IS JOB PROTECTION, NOT PAY.

This packet describes both your leave entitlements and income replacement options. It is important to understand these are not the same. Leave entitlements describe the types of “protected” leave to which you are entitled under University policy (incorporating federal and state laws, including FMLA, CRFA, etc.). “Protected” leaves are time you can be away from work (unpaid) and for which the University is not permitted to respond with an adverse employment action (e.g., discipline, termination, etc.). Income replacement describes the policies and procedures under University policy whereby you can continue to receive income notwithstanding that you are not working (i.e., on leave).

Family Serious Health Condition (SHC) Leave Process

Leave Entitlements: Family SHC

The following leave entitlement information applies to eligible Family Serious Health Condition leaves in academic faculty titles. Compensation for this leave is discussed on the following page, Pay Options: Family Serious Health Condition.

A serious health condition is defined as an illness, injury, impairment, or physical or mental condition that involves either inpatient care or continuing treatment by a health care provider, in which the employee's family member cannot perform the essential function(s) of their job. Both physical and mental health conditions qualify for FMLA/CFRA leave.

Employees may take such leave to care for their spouse, domestic partner, designated person, child (including the child of the employee's domestic partner), parent, parent-in-law, grandparent, grandchild, or sibling.

Family and Medical Leave (FML) is a job and benefit protected leave provided under any of the following statutes:

- **Family and Medical Leave Act (FMLA, Federal entitlement)** – provides eligible employees with up to twelve (12) workweeks of unpaid, job-protected leave per calendar year for a serious health condition.

Eligibility - at least 12 months of cumulative University service and 1,250 hours worked in the 12 months immediately preceding the commencement of the leave. Hours worked include overtime but not holiday, vacation, sick leave, or other paid leaves.

- **California Family Rights Act (CFRA, State entitlement)** – provides eligible employees with up to twelve (12) workweeks of unpaid, job-protected leave per calendar.

Eligibility - at least 12 months of cumulative University service and 1,250 hours worked in the 12 months immediately preceding the commencement of the leave. Hours worked include overtime but not holiday, vacation, sick leave, or other paid leaves.

For Family Serious Health Condition leaves, FMLA/CFRA run concurrently. The start of FMLA/CFRA is dependent on the information provided by the physician on a Certification of Health Care Provider for Family Member's Serious Health Condition form or comprehensive doctor's note.

Note: If a doctor's note is obtained in place of the Certification of Health Care Provider for Family Member's Serious Health Condition form, it must contain all the pertinent information that would be included on the Certification of Health Care Provider for Family Member's Serious Health Condition form. Doctor's notes with incomplete information will be returned to the employee for an updated note which may cause a delay with the employee's FMLA/CFRA designation.

Additional information:

FMLA/CFRA protected leaves entitle eligible employees of covered employers to take unpaid,

job-protected leave with continuation of group health insurance coverage under the same terms and conditions as if the employee had not taken leave.

UC Davis administers FMLA/CFRA on a calendar year basis.

- A “rolling 12-month period” will be used to calculate hours worked in determining if an employee is eligible for an FMLA/CFRA leave.
- FMLA/CFRA eligibility is re-calculated at the start of every calendar year, which includes FMLA/CFRA leaves in process. This means, for leaves that cross-calendar years, eligibility is checked twice: 1) once for the 12 months immediately preceding the commencement of the leave (for the current year benefit), and then again for the 12 months immediately preceding the start of the new calendar year (for the new year benefit).
- Any FMLA/CFRA leave used in the calendar year will decrease your total FMLA/CFRA allotment for that calendar year.
- If an employee takes less than the full amount of leave allowed, they do not need to re-qualify (regarding the number of hours worked) to take additional leave for the original reason within the 12-month period. If the additional leave is for a different reason than the original leave, the employee must re-qualify.

Employees not currently eligible for FMLA/CFRA leave entitlements may work with their respective departments to coordinate the necessary time away for their Family Member’s Serious Health Condition leave. Note: personal leaves are not protected under FMLA or CFRA.

Protected Sick Leave:

- **Protected Sick Leave** – provides eligible academic employees with a bank of six (6) days of paid, job-protected leave per calendar year. This leave is to be used in whole “day” increments proportionate to faculty’s appointment percentage, with 100% time equating to 8 hours, and resets January 1st each year.

An academic employee’s paid sick leave bank is protected paid sick leave, prohibiting any form of retaliation or discrimination for its use, if the employee uses the days for any of the purposes specified below and complies with proper notice requirements.

Employees may use protected paid sick leave for the diagnosis, care, or treatment of an existing physical or mental health condition of an employee or an employee’s family member; preventive care for an employee or an employee’s family member; or, for an employee who is a victim of domestic violence, sexual assault, or stalking.

Eligibility – available with an appointment of at least thirty (30) calendar days in a calendar year. The bank will be credited and available for use on the next working day following the first month pay cycle.

***Certification by a health care provider.** Under the FMLA, the definition of health care provider includes, but is not limited to the following: doctor of medicine or osteopathy, physician assistant, nurse practitioner, podiatrist, dentist, nurse-midwife, clinical psychologist, clinical social worker, optometrist, chiropractor, Christian Science practitioner, and any provider covered under the employer group health plans, including foreign countries. Other health care providers may be acceptable, please contact AP for guidance.

Leave Laws

The following is a guide regarding federal and California state disability leave laws as they relate to a family serious health condition leave. Please be advised you must confer with your Academic Personnel (AP) department analyst regarding your eligibility for protected leave under the Family and Medical Leave Act (FMLA) and the California Family Rights Act (CFRA).

Type of Leave	Duration	Benefit	Eligibility Requirements and Use
Family and Medical Leave Act (FMLA)	Up to 12-weeks per calendar year	<ul style="list-style-type: none"> • Job protected leave • Eligible for benefit continuation of employer contribution for medical/dental/vision 	<p>Eligibility requirements:</p> <ol style="list-style-type: none"> 1. 12 mos. cumulative UC service 2. 1250 actual hours worked in the prior 12 mos. <p>Runs concurrently with CFRA for any period of incapacity for a family member's serious health condition.</p>
California Family Rights Act (CFRA)	Up to 12-weeks per calendar year	<ul style="list-style-type: none"> • Job protected leave • Eligible for benefit continuation of employer contribution for medical/dental/vision 	<p>Eligibility requirements:</p> <ol style="list-style-type: none"> 1. 12 mos. cumulative UC service 2. 1250 actual hours worked in the prior 12 mos. <p>If employee is eligible for FMLA at the time of their leave, they will be eligible for 12 weeks of protected leave due to a family member's serious health condition.</p> <p>Runs concurrently with FMLA for any period of incapacity for a family member's serious health condition.</p>

While the Family and Medical Leave Act (FMLA) and California Family Rights Act (CFRA) are unpaid entitlements during a family serious health condition leave, faculty members may have several options to receive compensation while on leave.

- **Pay for Family Care and Bonding (PFCB)** – provides income replacement of 100% of eligible earnings for up to eight workweeks per calendar year to care for a family member with a serious health condition.

The PFCB option provides pay calculated at one hundred percent (100%) of an appointee's eligible earnings. Base salary includes on-scale, off-scale, and above-scale, and X and X-prime (X') components for Health Sciences Compensation Plan (HSCP) participants.

If a faculty elects to use PFCB for a particular qualifying family and medical leave block leave rather than using paid leave accruals, other available pay options or taking the leave without pay, the faculty must continue to use PFCB until they either exhaust their full eight (8) workweeks of PFCB for the calendar year or that qualifying family and medical leave block leave ends. If their leave ends before they have used the full eight (8) workweeks of PFCB for the calendar year, the remainder is available to use during a qualifying family and medical leave block leave later in the calendar year.

Eligibility - the faculty member must **first** be eligible and approved for Family Medical Leave under FMLA and/or CFRA. This pay option also requires that leave be taken in block increments of one workweek or more.

- **Vacation Pay (Vacation)** – Faculty may use accrued vacation for full pay to cover any combination of leave not covered by the PFCB pay benefit.
- **Sick Leave** –As of January 1, 2025, faculty may use their bank of six (6) days of paid sick leave per calendar year (resets January 1st). Faculty may use this bank to cover any leave not covered by the PFCB pay benefit. This leave is to be used in whole “day” increments corresponding to faculty’s appointment percentage, with 100% time equating to 8 hours.
- **Catastrophic Leave Donations** – Faculty that have exhausted all paid leave options due to a catastrophic illness or catastrophic event, and are on approved leave without pay, may be eligible for catastrophic leave donations from the general pool and/or direct donations from the UC Davis Catastrophic Leave Sharing Program. Faculty should work with their department AP analyst, if interested. Information on program eligibility, availability, and requirements can be found here: [Catastrophic Leave Sharing Program](#).

Additional Information:

If a faculty member has used all applicable pay options and still has protected leave available, they may choose to continue their leave without pay.

Non-Health Sciences Compensation Plan Faculty

Please review the applicable leave packet for non-HSCP members.

The following forms and documentation apply to Family Serious Health Condition (SHC) leaves for academic faculty titles.

- [Notice of Eligibility and Rights and Obligations Form \(DEPARTMENT\)](#)

When an employee first requests a leave for a reason that may qualify for FMLA leave/CFRA, or the department receives information of a possible qualifying event, the employer must notify the employee whether they are eligible for FMLA/CFRA leave. If the employee is eligible, the employer must notify the employee in writing about employee rights and responsibilities under the FMLA.

The Notice of Eligibility and Rights and Obligations Form should be provided to the employee **within five (5) days** of the department learning of a possible qualifying event or receipt of the leave request from the employee.

- [Certification of Health Care Provider for Family Member's Serious Health Condition Form \(FACULTY\)](#)

Medical certification to support employee's request for leave to care for a family member with a serious health condition. Providing this completed form is required to obtain (or retain) the benefit of FMLA/CFRA protections for the employee's leave.

The Certification of Health Care Provider for Family Member's Serious Health Condition Form should be provided to the employer **within fifteen (15) days** of receipt of the Notice of Eligibility and Rights and Obligations Form.

- [Declaration of Relationship Form](#)

This form should be completed by the employee when the employee requests FML to care for a family member with a serious health condition. Please note: This declaration is for FML purposes only and does not establish benefits eligibility for the family member.

The Certification of Health Care Provider for Family Member's Serious Health Condition and Declaration of Relationship Form should be provided to the employer **within fifteen (15) days** of receipt of the Notice of Eligibility and Rights and Obligations Form.

- [Designation Notice Form \(DEPARTMENT\)](#)

Once the employer has enough information to know whether a leave request qualifies as FMLA/CFRA leave, the employer must notify the employee in writing whether the employee's time off from work will be designated FMLA/CFRA leave, and the amount of time that will count against the employee's entitlements.

The Designation Notice Form should be provided to the employee **within five (5) days** of the employer receiving sufficient information regarding qualification of leave.

- [Family Serious Health Condition Leaves Map \(DEPARTMENT\)](#)

A leave mapping offers the employer and employee a full picture glance of leave entitlements, pay, and anticipated length of leave.

- **[Family and Medical Leave Benefits Fact Sheet](#)**

This University of California fact sheet offers general guidance on how Family and Medical Leave works, eligibility requirements, how to arrange for a leave, what happens to your benefits during a leave and how to make the transition back to work.

MEDICAL, DENTAL, AND VISION BENEFITS

If you are on UC pay status, all UC-sponsored benefits continue.

If you are off UC pay status and on one of these types of approved leaves, UC contributions for your medical, dental and vision will continue: Family and Medical (FMLA) and/or California Family Rights Act (CFRA) leaves. However, you may be responsible to pay your contribution for your medical benefits. Please see [UC's Leave Without Pay Fact Sheet](#) for more information.

Frequently Asked Questions

Q: How do I request a Family Member’s Serious Health Condition leave?

A: Contact your supervisor and department analyst so they can provide information on your eligibility and options.

Q: What is the difference between leave entitlement and paid leave benefits?

A: Leave entitlements describe the types of “protected” leave to which you are entitled under University policy (incorporating federal and state laws, including PDLL, FMLA, CRFA, etc.). Income replacement, or paid leave benefits, describes the policies and procedures under University policy whereby you can continue to receive income notwithstanding that you are not working (i.e., on leave).

Q: How does the new APM-710 faculty sick leave entitlement affect my previous 5-day comp plan leave benefit?

A: UC Davis Health Sciences Compensation Plan faculty have had five days of sick leave which could only be used to care for family members. The change to APM-710 will be incorporated into the Comp Plan, increasing both the amount of leave available (six days instead of five) and broadening the scope so you may use this leave either for your own illness or to care for a family member. Also, this leave is “protected,” meaning the University cannot take an adverse action against a faculty member who utilizes the leave appropriately.

Q: Am I required to use the Pay for Family Care and Bonding (PFCB) pay benefit when going out on an approved leave for a Family Member’s Serious Health Condition?

A: No, when you use PFCB pay benefit is up to you. If you would prefer to use your sick leave, accrued vacation, or take unpaid leave, that is totally your discretion.

Q: What if I have used all my 8 weeks of PFCB pay benefit and have an upcoming leave?

A: Your PFCB will no longer be available. This pay benefit is only available for eight workweeks per calendar year. If you have exhausted that pay benefit, you can look into other possible pay options such as your five annual compensation plan days, vacation pay, or leave without pay. Please reach out to your department analyst to start that conversation.

Q: Who should sign my medical documentation (e.g. disability certification, return to work certification, etc.)?

A: Medical documentation should be signed by your health care provider.

Under the FMLA, the definition of health care provider includes, but is not limited to the following: doctor of medicine or osteopathy, physician assistant, nurse practitioner, podiatrist, dentist, nurse-midwife, clinical psychologist, clinical social worker, optometrist, chiropractor, Christian Science practitioner, and any provider covered under the employer group health plans, including foreign countries. Other health care providers may be acceptable, please contact AP for guidance.

Q: How do I return to work after my leave?

A: Employees on leave due to a Family Member’s Serious Health Condition do not require a Return to Work form.

You have a minimum of 30 days to make premium payments. If payment is not made timely, your group health insurance may be cancelled, provided we notify you in writing at least 15 days before the date that your health coverage will lapse, or, at our option, we may pay your share of the premiums during your FML, and recover these payments from you upon your return to work.
- You will be required to use the following paid leave during your FML absence: your available **sick leave**, **vacation**, and/or **other leave**. Your entire FML absence, including any period during which you are using paid leave, will be counted against your FML leave entitlement. **Note:** This requirement to use paid leave does not apply to any part of an FML absence during which employees are using Pay for Family Care and Bonding (PFCB).
- While on leave you will be required to furnish us with periodic updates of your status and intent to return to work every: _____ *[Indicate interval of periodic updates, as appropriate for the particular leave situation].*

- If you return directly from a leave under the PDLL, you will be reinstated to the same position or, if the same position is not available, to a comparable position. (If your leave extends beyond the end of your FML leave entitlement(s), you do not have statutory return rights.)
- If you return directly from any statutory FML leave other than a leave under the PDLL, you must be reinstated to the same or an equivalent job with the same pay, benefits, and terms and conditions of employment on your

return from FMLA-protected and/or CFRA-protected leave. (If your leave extends beyond the end of your FML leave entitlement(s), you do not have statutory return rights.)

- You may be required to reimburse the University for its share of health insurance premiums paid on your behalf during any unpaid portion of your FML if you do not return to work following FML for a reason other than: 1) the continuation, recurrence, or onset of a serious health condition that would entitle you to FML; 2) the continuation, recurrence, or onset of a Covered Servicemember's serious injury or illness which would entitle you to FML; or 3) other circumstances beyond your control.
- If we have not informed you above that you must use paid leave while taking your unpaid FML leave entitlement, you may have the right under the applicable policy or collective bargaining agreement to use Pay for Family Care and Bonding (PFCB) and/or the following paid leave during your FML absence: **sick leave, vacation leave, and/or other leave**. Serious Health Conditions

A “serious health condition” means an illness, injury (including, but not limited to, an on-the-job injury), impairment, or physical or mental condition that involves either inpatient care or continuing treatment, including, but not limited to, treatment for substance abuse.

- Inpatient Care means a stay in a hospital, hospice, or residential health care facility, any subsequent treatment in connection with such inpatient care, or any period of incapacity. A person is considered an inpatient when a health care facility formally admits them to the facility with the expectation that they will remain at least overnight and occupy a bed, even if it later develops that such person can be discharged or transferred to another facility and does not actually remain overnight.
- Incapacity means the inability to work, attend school, or perform other regular daily activities due to a serious health condition, its treatment, or the recovery that it requires.
- Continuing Treatment means ongoing medical treatment or supervision by a health care provider.

A serious health condition involves one or more of the following:

1. Inpatient Care (as defined above)

2. Absence Plus Treatment

A period of incapacity of more than three (3) consecutive calendar days (including any subsequent treatment or period of incapacity relating to the same condition), that also involves:

- (a) Treatment two or more times by a health care provider, by a nurse or physician’s assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; OR
- (b) Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider (e.g., a course of prescription medication, or therapy requiring special equipment, to resolve or alleviate the health condition). This does not include taking over-the-counter medications or activities that can be initiated without a visit to a health care provider (e.g., bed rest, exercise, drinking fluids).

3. Pregnancy (which is covered as a serious health condition under FMLA but not under CFRA)

A period of incapacity due to pregnancy, childbirth, or related medical conditions. This includes severe morning sickness and prenatal care.

4. Chronic Conditions Requiring Treatment

A chronic condition that:

- (a) Requires periodic visits for treatment by a health care provider, or by a nurse or physician’s assistant under direct supervision of a health care provider;
- (b) Continues over an extended period of time (including recurring episodes of a single underlying condition); and
- (c) May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

5. Permanent/Long-Term Conditions Requiring Supervision

A period of incapacity that is permanent or long-term due to a condition for which treatment may not be effective. The person must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer’s, a severe stroke, or the terminal stages of a disease.

6. Multiple Treatments (Non-Chronic Conditions)

Any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three (3) consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), or kidney disease (dialysis).

DESIGNATION NOTICE (R12/22)
FAMILY AND MEDICAL LEAVE ACT (FMLA), CALIFORNIA FAMILY RIGHTS ACT (CFRA),
AND CALIFORNIA PREGNANCY DISABILITY LEAVE LAW (PDLL)

To: Joe Jones Date: August 22, 2025

We have reviewed your request for Family and Medical Leave (FML) and any supporting documentation that you have provided. We received your most recent information on August 22, 2025 and decided:

PART A: To Be Completed if FML Request is Approved.

Your FML request for the following reason(s) is approved:

- Your own serious health condition.
- The need to care for one of the following family members due to their serious health condition:
 spouse; domestic partner; designated person: _____; child;
 parent; parent-in-law; grandparent; grandchild; sibling.
- Pregnancy Disability Leave (PDL). This leave may be used when you are disabled by pregnancy, childbirth, or a related medical condition. It may also be used for prenatal care.
- Parental bonding leave following the birth of a child, or placement of a child with you for adoption or foster care.
- Military caregiver leave to care for a family member who is a Covered Servicemember with a serious injury or illness. You are the Covered Servmember's:
 spouse; domestic partner; child; parent; next of kin.
- A qualifying exigency related to the following family member's active duty or call to active duty status with the Armed Forces:
 spouse; domestic partner; child; parent; parent-in-law.

All leave taken for the above reason(s) will be designated as FML and counted against your entitlement under the following statute(s) until exhausted: FMLA; CFRA; PDLL.

For block leaves:

Start date: 9/4/25 Anticipated End Date: 11/6/25 Return to Work Date: 11/7/25

For Reduced schedule leaves or leaves on an intermittent basis:

Start date: _____ Anticipated End Date: _____

You are required to notify the University as soon as practicable if the dates of your scheduled leave change or are extended. If there was no firm end date for your leave, you should notify the University as soon as practicable when a firm end date is established. Based on the information you have provided to date, we are providing the following information about the amount of time that will be counted against your FML leave entitlement:

- Provided there is no deviation from your anticipated leave schedule, the following number of hours, days, or weeks will be counted against your FML leave entitlement under the following statute(s):
 - FMLA 9 Weeks 1 Days _____ Hours.
 - CFRA 9 Weeks 1 Days _____ Hours.
 - PDLL _____ Weeks _____ Days _____ Hours.

- Because the leave you will need will be unscheduled, it is not possible to provide the hours, days, or weeks that will be counted against your FML leave entitlement at this time. You have the right to request this information once in a 30-day period (if leave was taken in the 30-day period).

If more than one statute is checked above, please note:

- For an FML leave other than Pregnancy Disability Leave: If both the FMLA and CFRA boxes are checked above, you will be concurrently using your entitlements under those statutes until you have either completed your leave or exhausted one or both of those entitlements.
- For a Pregnancy Disability Leave (whether or not immediately followed by Parental Bonding Leave): During the first 12 workweeks of your Pregnancy Disability Leave, you will be concurrently using your PDLL and FMLA entitlements until you have either completed your Pregnancy Disability Leave or exhausted your FMLA entitlement. If your Pregnancy Disability Leave continues after that point, you will only be using your PDLL entitlement until you have either completed your Pregnancy Disability Leave or exhausted your PDLL entitlement. If you take Parental Bonding Leave immediately following Pregnancy Disability Leave and you have not yet exhausted both your FMLA and CFRA entitlements, you will be concurrently using your FMLA and CFRA entitlements during your Parental Bonding Leave until you have either completed your leave or exhausted one or both of those entitlements.

Please be advised (check if applicable):

- You have requested to use paid leave during your FML. Your entire FML absence, including any period during which you ²⁰ are using paid leave, will count against your FML leave entitlement.
- You have requested to use Pay for Family Care and Bonding (PFCB) during your FML. If your leave qualifies for the PFCB option and you have PFCB entitlement available, your entire FML absence, including any period during which you are using PFCB, will count against your FML leave entitlement.
- We are requiring you to use paid leave during some or all of your FML. Your entire FML absence, including any period during which you are using paid leave, will count against your FML leave entitlement.
- You will be required to provide the enclosed Return to Work certification to be restored to employment. If such certification is not timely received, your return to work may be delayed until certification is provided. If the job description is attached, the Return to Work certification must address your ability to perform those essential functions that you were unable to perform as a result of your serious health condition.
- A job description listing the essential functions of your position is attached to the Return to Work Certification.

PART B: To Be Completed if FML Request Is Not Approved

Your FML request is **Not Approved** because:

- Your leave is not for an FML-qualifying reason.
- You have not provided the necessary information to support your request for FML.
- You have exhausted your FML leave entitlement for the applicable period.
