

PICC Nurse Skills

Name:	Employee ID #:
Unit:	Title:
PERFORMANCE CRITERIA - Unless otherwise specified all skills will be demonstrated in accordance with the appropriate UC Davis Health Policy and Procedure.	
These skills will be considered complete when all below performance criteria are completed and page 1 has been scanned and emailed to: cppn@health.ucdavis.edu	

Skill/Learning Not all skills are applicable to all Nursing areas – if not applicable mark as N/A	Skill Code (For CPPN Use Only)	Date Completed (or N/A)	Verifier Initials
Blood Draws Skills Check: Performs per UC Davis Health Policies 13001 Vascular Access Policy (Adult/Pediatric) , 13002 Vascular Access Policy (Neonatal) , and 13029 Venipuncture Verification and Blood Withdrawal	DAHS-NSCBD14		
Initial PICC RN Placement Skills Checklist	DAHS-NSCIPICCRNP14		
Lidocaine Skin Anesthetic Injection by a Certified RN: use one or both of these forms: Lidocaine Skin Anesthetic Intradermal Injection and/or Lidocaine Skin Anesthetic Needle Free Injection			
Microintroducer Modified Seldinger Technique for PICC Insertion Skills Checklist	DAHS-NSCMMSTPI14		
PICC Placement Using Ultrasound Guided Insertion Skills Checklist	DAHS-NSCPICCPUUG114		

PRECEPTOR SIGNATURE:

Signature and Printed Name of Verifier (preceptor or other verified personnel) who have initialed on this form:

Initials:	Print Name:	Signature:

PRECEPTEE STATEMENT AND SIGNATURE:

I have read and understand the appropriate UC Davis Health Policies/Procedures and/or equipment operations manual, I have demonstrated the ability to perform the verified skills as noted, and I have the knowledge of the resources available to answer questions.

These skills will be considered complete when all below performance criteria are completed and page 1 has been scanned and emailed to: cppn@health.ucdavis.edu	

Initial PICC RN Placement Skills Checklist #DAHS-NSCIPICCRNP14	Date	Verifier Initials
References: 1. Journal of Infusion Nursing: Infusion Nursing Standards of Practice, 2006. 2. The Infusion Nursing Society, Infusion Therapy in Clinical Practice, 3rd edition, 2010.		
Read UC Davis Health Clinical Policy 13013: Parenteral Nutrition		
Successfully complete UC Davis Health Care System IV Verification		
Successfully complete Initial Skill Testing: PICC Placement Using Ultrasound Guided Insertion.		
Successfully complete Initial Skill Testing: Micro Introducer Modified Seldinger Technique for PICC Insertion.		
Read manufacturer's instructions and guidelines of product use (package insert) for: Sherlock navigation device, ultrasound device and PICCs and MST's used to place PICCs by the PICC Services Department.		
Appropriate patient information reviewed: a) Appropriate EMR order b) Patient diagnosis c) Lab result variance noted (high white blood count, platelets, INR/PTT) d) Relevant images or duplex studies (occluded veins, structural deformities) e) H & P and Progress notes (CKD pt., previous PICCs, mastectomy, cardiac anomaly, liver disease, recent pacemaker)		
Appropriately obtain and complete PICC consent documentation (to include risks, benefits, possible complications and alternatives.)		
Observe proper sterile technique: Completion of Sterile Field Skill.		
Correctly document PICC insertion procedure in EMR, including pre-procedure checklist, Central Line Insertion Checklist, PICC Placement Note, and add PICC to IV Assessment flowsheet		
Complete excel database appropriately

Manufacturer's Instruction Manual. 4. Position Statement, Use of Real-Time Imaging Modalities for Placement of CVA Devices, Association for Vascular Access, 2010, www.avainfo.org.		
Successfully complete PICC placement Skills/instructional strategies and performance criteria.		
Read ultrasound manufacturer's instructions and guidelines of product use.		
Using ultrasound visualization, successfully identify the following venous and arterial anatomy: basilica vein, brachial vein, cephalic vein, axillary vein, saphenous vein and brachial artery.		
Describe the appearance of venous anatomy that is appropriate for choosing a desired vein for PICC placement.		
Successfully measure vein with ultrasound measuring tool on U/S device. Identify vein size appropriate for PICC size.		
Identify / describe abnormal venous anatomy.		
Complete Initial Ultrasound Skill post-test.		
Observe ultrasound guided PICC insertion.		
Complete a minimum of ten successful ultrasound guided PICC insertions.		
For OUT-PATIENT placements only: Correctly save vein image to ultrasound device and download image to database.		
Correctly document the use of ultrasound for insertion in the PICC Placement Note.		
Complete a minimum of ten successful PICC insertions.	Date	Verifier Initials
