**Philosophy of Care:**

My philosophy of care centers on providing compassionate, patient-centered, and evidence-based care. I believe that every patient deserves respect, dignity, and a comprehensive approach that addresses their unique health needs and personal values. I strive to foster trust through open communication, collaboration with multidisciplinary teams, and shared decision-making, involving patients and their families to the extent they wish to be involved.

My role is to advocate for each patient, ensuring they receive timely, effective, and safe care. I am committed to continuous learning and staying updated on best practices to provide high-quality care that improves outcomes. I am also dedicated to creating a supportive environment for patients and colleagues, where empathy, respect, and teamwork contribute to a positive and healing experience.
