

“Meet the Faculty – An Open Forum with Faculty and Students”

Tuesday, September 5th, 5:30 P.M. (PST)

The Faculty would like to invite medical students interested in a career in Otolaryngology to join our Virtual Town Hall. This session will give the students the opportunity to learn more about our department from the faculty. We will kick off the evening with an introduction of our faculty. Afterward, students will break into small groups with faculty leading an open Q & A session.

Please complete the following registration form below to participate. We sincerely hope you can join us!
