

Department of Otolaryngology – Head and Neck Surgery

Medical Extended Reality Symposium

Join us for the first annual Medical Extended Reality Symposium with lectures from experts in the field, an opportunity for hands on experience with AR and VR equipment and participate to see how the future of medicine is evolving.

- Medical Extended Reality in Surgery
- Augmented Reality in Mandibular Reconstruction, Spine Surgery and Pediatric Neurosurgery
- Defining Tumor Margins with AR
- 3D Printing in Head & Neck Oncologic Surgery
- Hands on Sessions AR and VR Applications
