PERSONAL STATEMENT

Q5.1 Please provide your personal statement as a PDF and email with this completed application to vmartinezcerdeno@UCDAVIS.EDU using the following file name convention:

Lastname.Firstname.PersonalStatement.

Description

The overall goal of the **PathWAYS** (Pathology Widens Avenues for Young Scientists) program is to increase the number of undergraduate students from historically marginalized and underrepresented groups in the field of health sciences by providing research opportunities designed to build life science skills, develop a sense of community, and identify potential mentors who can guide students on a pathway to academic success. Increasing the diversity of undergraduate students who pursue advanced degrees and research careers will be our measure of success.

The I-DARE PathWAYS Winter/Spring Research Internship Program seeks to enroll students who not only take initiative in pursuing their education but also show a dedication for and appreciation of the health sciences.

In order to understand each applicant's motivation and dedication to this specific research internship program, specifically research in the health sciences, your statement should include how you have taken advantage of your previous educational opportunities, any previous research experiences and why you have chosen to apply for this internship. Please also include any career path you are currently most interested in pursuing.

Please reflect on your academic or creative interests and personal ability to contribute to this research opportunity. Please include any talents, experiences (education, employment, extracurricular activities), contributions or qualities which will add to this summer research internship program.

To get a sense of your personal growth, please mention briefly any important aspects of your schooling or your life, including personal circumstances, family experiences, opportunities that were not available through your school or college and your ability to prevail over challenging situations (for example: first in family to attend college? financial hardships? underserved area? contributions to underserved communities, diversity, and inclusion).

Write your personal statement in a natural style, so that it conveys who you are. Present your information and ideas in a focused, thoughtful and meaningful manner, and support your ideas with specific examples. Your personal statement should be between 1 to 2 pages, in Arial, size 11 font, 1 to 1.5-spaced. Please use pages 7-8 below to enter your personal statement.
